

XI ONE ONE

MASTERING

Thank you for purchasing your masters with EOOM!

Please email your track(s) to elevenoneonemusic@gmail.com along with some information as to how you would like your masters to be mastered, i.e., do you want them super loud with compromised dynamics? Do you want them nicely balanced with dynamics intact and with a competitive loudness? Do you want them to be a certain LUFS for a particular streaming platform?

Please state whether your master(s) is for Digital or Vinyl use.

Please send a downloadable link with **Dropbox**, **Google Drive**, or those alike.

Pre-Master Specifications: Please send your pre-masters in either 44.1/48k 16/24 bit and preferably at -10db, but no louder than -6db.

Please allow for a **3-4 day** turnaround. Our engineer will send over your master(s) via Wettransfer from the same email address above. You are allowed **unlimited** revisions per track as we want to ensure you are happy with the result(s).
